

# J NANDHAKUMAR

## Python Full Stack Developer

Bengaluru, Karnataka | 9080132361 | nkjai24@gmail.com

[github.com](#) | <https://my-professional-information-6cx2.vercel.app/> | [linkedin.com](#)

---

### PROFESSIONAL SUMMARY

Skilled **Python Full Stack Developer** experienced in **React**, **FastAPI**, **REST APIs**, and **SQL**-based **Database Management**, building **Responsive UI** with seamless **API Integration** and scalable backend systems. Proficient in **Git/GitHub** workflows and developing **AI-powered Applications** for intelligent automation and learning support.

---

### EDUCATION

**M.Sc Computer Science** | Periyar University – Sona College of Arts and Science, Salem | Jun 2024 – Apr 2026 | CGPA: 8.12

**B.Sc Information Technology** | Bharathiar University – RVS College of Arts and Science, Coimbatore | Jun 2021 – May 2024 | CGPA: 7.71

---

### CORE COMPONENTS

**Programming:** Python, Java, SQL, JavaScript

**Frontend:** HTML, CSS, React, TypeScript, Vite

**Backend:** FastAPI, JDBC, Servlet

**Databases:** MySQL, SQLite, MongoDB

**Tools:** VS Code, IntelliJ, Eclipse IDE, Git, GitHub, Jupyter Notebook, Google Colab, MySQL Workbench

**API / AI:** REST APIs, Ollama, Weather APIs

---

### KEY SKILLS

Python Development • Full Stack Development • React • FastAPI • REST APIs • SQL • MongoDB • Frontend Development • Backend Development • API Integration • Responsive UI • Git/GitHub • Debugging • Testing

---

### EXPERIENCE (INTERNSHIP)

**Junior Trainee** | United Soft Tech Pvt Limited | Salem, Tamil Nadu | Aug 2025 – Nov 2025

- Developed **AI-powered question answering system** integrated with **Ollama** local LLM for intelligent learning assistance.
- Implemented **speech recognition**, **text-to-speech modules**, and **REST API communication** between frontend and backend.
- Performed **debugging**, **testing**, and **Responsive UI** optimization for seamless user interaction.

---

### CERTIFICATIONS

Full Stack Developer Internship – Techforge | Google IT Support: Technical Support Fundamentals | Google IT Automation with Python

---

### PROJECTS

#### Smart Teaching Assistant

**Tech Stack:** React, TypeScript, FastAPI, SQLite, Ollama

- Developed full-stack **Smart Teaching Assistant** using **React**, **TypeScript**, **FastAPI**, and **SQLite**.
- Integrated **Ollama** (qwen2b local LLM) for **AI-powered question answering** and document interaction.
- Built **Responsive UI** with efficient **API Integration** and contextual learning support.

#### Weather Dashboard

**Tech Stack:** React, TypeScript, Vite

- Built responsive **Weather Dashboard** using **React**, **TypeScript**, and **Vite**.
- Integrated real-time **Weather APIs** with location-based search and reusable UI components.

#### Study Hub Website

**Tech Stack:** React, Python, MongoDB

- Developed full-stack **Study Hub** platform using **React**, **Python**, and **MongoDB**.
- Designed **Responsive UI** with backend integration and **Database Management** for content handling.
